

Doors and drawer front:

Doors on the Value line are made of solid wood rails with a MDF/veneered center panel to reduce the possibility of shrinkage: drawer fronts are solid wood rails with a veneered recessed panel.

Value Door Series:

The five piece Value modified full overlay door has a ½" thick MDF/birch veneered raised center panel captured in a ¾" x 2 ¼" mortise solid birch frame and is complimented with a 5 piece recessed panel drawer front. All overlays on top of all wall cabinets have been modified to accept a crown molding.

Hinges:

6-way adjustable, concealed hinges open at 110 degree on all product lines.

Drawers:

The Value line includes a 5/8" thick solid birch dovetail drawer box with a 3/8" plywood bottom, attached to under mounted epoxy coated slides.

Shelving:

5/8" thick select veneered plywood with matching wood edge banding is used on all wall and base cabinetry where applicable. The adjustable shelves are supported by plastic self locking shelf clip.

Backs, Tops and Bottoms:

½" thick veneered plywood, with natural finished interiors. The backs are glued, stapled and screwed into place for additional support.

Face Frame:

$\frac{3}{4}$ " x $1\frac{1}{2}$ " solid wood stiles and rails jointed with glue and dowels. Back of face frames are grooved to accept side panels.

Toe Kick:

$\frac{1}{2}$ " x $4\frac{1}{2}$ " select veneered plywood toe kick is added to each assembled cabinet and stained to match along with the edges. Additional 8' lengths of $\frac{1}{4}$ " plywood toe kicks are available for those who do not wish to see the joints between cabinets.

Corner Blocks:

All four corners of the base cabinets are secured with a plastic block fastened to each end panel for support and mounting of a counter top.

- 1) Solid wood door frames mortise and tenon.
- 2) 6-way adjustable concealed hinge with 110 degree opening capability
